Curriculum Vitae

Dr. Özgür Pilancı is a highly accomplished aesthetic and plastic surgeon with nearly two decades of clinical, academic, and research experience in advanced reconstructive and aesthetic surgery. Currently serving as a Professor Doctor at his own clinic in Istanbul, he is widely recognized for his expertise in periorbital aesthetics, facial rejuvenation, and complex reconstructive procedures, including the internationally published Supraorbital Bone Shaving technique. Dr. Pilancı combines surgical excellence with a strong academic background, having authored numerous peer-reviewed publications in leading international journals.

Throughout his career, he has demonstrated a deep commitment to patient-centered care, evidence-based practice, and continuous innovation. In addition to his clinical work, he has played an active role in mentoring surgeons, developing educational curricula, and contributing to medical research that advances both functional and aesthetic outcomes. His work reflects a rare balance of precision, artistry, and scientific rigor.
